Any other comment?

FANTASTIC WEEK!

It was one of the best weeks in my life :)

I was a good trip.

It was a wonderful trip

My host family was great

I have nothing else to say. I loved the visit, I would do it again.

It was fantastic and I'd like to do it again and again, every year.

We should meet more times.

I will miss travelling to other countries, but will try to stay in contact with the friends I have made from France, England, Germany and the Basque Country.

I am so happy to have been involved in this Comenius project and being given the chance to meet so many new and beautiful people. I'll never forget this experience.

it was a very good experience!

I hope we could repeat this experience.

Everything was great in Germany.

It was a very good experience

We made a lot of friends and we had fun all together

In general, I liked it a lot.

What should be improved in the project?

We have to stay more time in the houses

It should be longer because 5 days is not enough for me.

It should be longer because when you feel more confident about yourself and start meeting new people you have to go, and that is not real fun.

More days and better organization

Stay more time in the country to work on the project.

Stay more time in the country and family.

Stay longer in the country and more often in host families. Two weeks would be perfect.

I should be improved in the project is stay time

I think this project would be better if we could stand more time in the country!

The journey needs to last longer"

Allow the Irish students to stay in host students homes

More days abroad to have the opportunity to know the other students better would be good and to be with them longer.

I think we could start the week with a party on the first day, as we did on the last day.

Anything. Everything it is ok

More exchanges in Europe

The participation of other students
